

NEO SMART BLINDS

We design and manufacture motors and automation products for the window coverings industry

2025
PRODUCT CATALOG

INDEX

Introduction	Neo Smart Blinds is dedicated to providing straightforward and cost-effective motors and accessories for the window covering industry. Our product range includes a diverse selection of RF, Bluetooth, and Wi-Fi motors with battery and wired options, solar panels, control and automation accessories, along with various hardware choices.	06
Neo Motors	Explore our extensive collection of 25mm, 35mm, and 45mm tubular motors, as well as curtain and venetian motors featuring wand and app compatibility options.	08
Neo Wand	Discover wand options in lengths of 21, 39, and 51 inches, each equipped with 2 favorite position, open and close controls, and a charging port. Easily configure settings using control buttons and dedicated buttons on the back.	14
Neo Remote Controls	Choose from our RF handheld remote controls, available in 2, 6, 15, or 30 channels, each supporting 2 favorite position settings. The remotes come in both white and black options, with additional choices of 2 and 8 channel wall remote controls.	23
Smart Controller	Control compatible motor brands from anywhere with the Smart Controller and Neo Smart Blinds App. Easily integrate with leading smart home platforms, including Amazon Alexa, Google Home, Apple Home, Control4, Nice/ELAN, and more.	25
Blue Link	Easily adjust compatible Neo motors with internal or external Blue Link via Bluetooth®. Get real-time feedback on battery levels, blind positions, and schedule automation to suit your needs.	29

NEO SMART BLINDS

Innovative automation solutions designed for manufacturers and installers, offering smooth integration, extensive compatibility, and user-friendly control.

Introduction

Neo Smart Blinds is a **Canadian company based in Montreal**, specializing in motorization and automation solutions for the window coverings industry. Since 2012, we have been **designing, developing, and manufacturing** a wide range of products, including tubular, venetian, and drapery motors, solar panels, remote controls, and accessories. With expertise in **RF, Wi-Fi, and Bluetooth technologies**, we provide **easy automation through our intuitive apps**.

Trusted by manufacturers and dealers across North America, Europe, and Australia, our solutions are designed to be adaptable and easy to integrate. The **Smart Controller, our multi-protocol RF hub**, simplifies automation by **supporting over 20 motor brands** and connecting with leading smart home platforms such as **Amazon Alexa, Google Home and Apple Home**. With **in-app guided setup tailored to each motor brand**, installers and users can configure their systems with confidence.

For a **cost-effective alternative**, our **wand motors** offer manual or app control, real-time feedback, and automated scheduling via Blue Link, a Bluetooth dongle. Whether you're working with multiple motor brands, planning a transition, or expanding your smart home offerings, **Neo Smart Blinds provides the flexibility and reliability to power your business**.

Enhance your product line with flexible, future-ready motorization and control to meet customer needs.

Our Services Custom Hardware

Need hardware that works with your existing tubes and parts? We design and manufacture solutions that integrate perfectly with our motors, making transitions and upgrades effortless.

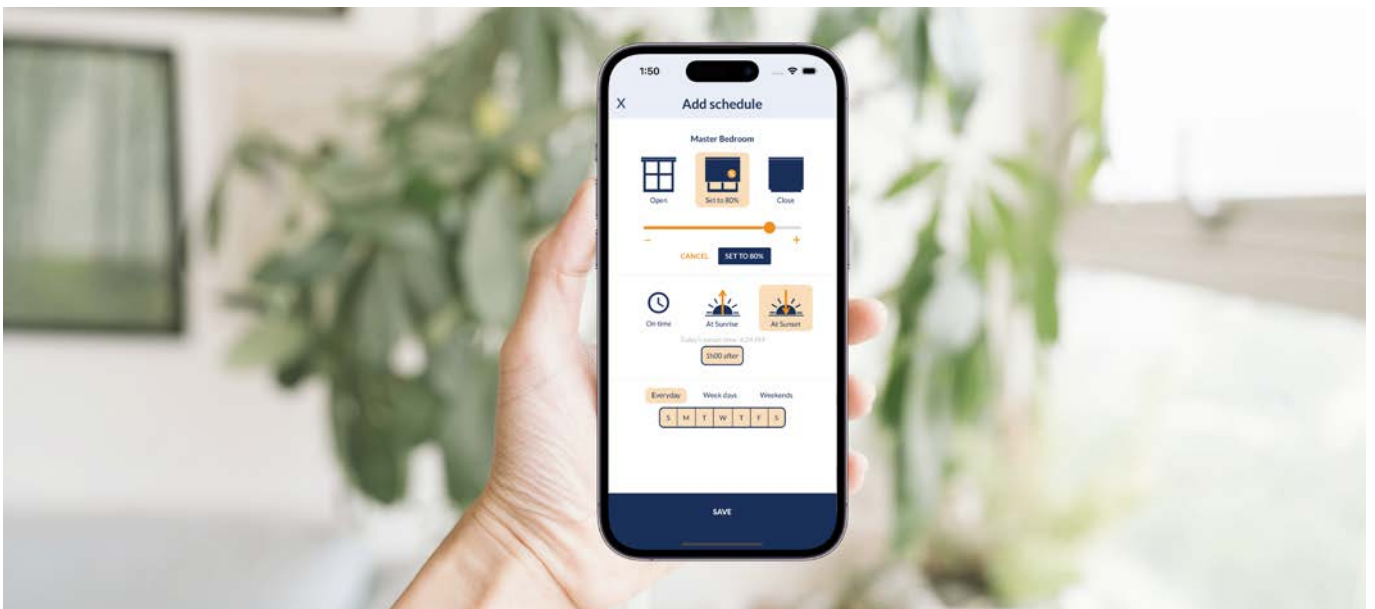

White Label Motors

Create a motor line that reflects your brand. Customize everything from logo and color to operational parameters, wire length, drive, and crown sizes—ensuring a seamless fit for your product lineup.

Smart Controller & App Customization

Make the Smart Controller and Neo Smart Blinds app your own with flexible branding options:

- **Setup Code:** Personalize the app with your brand's logo, colors, technical support details, and tailored motor protocols, remote controls, and blind types—perfect for businesses that want a customized experience within our platform.
- **Standalone App:** Get a fully branded app with all the technical refinements of the Setup Code. While we handle publishing and maintenance, your brand takes center stage in the Google Play and Apple App Store.

NEO MOTORS - 25 SERIES

TM-RB25-1.1/30

TM-RB25-C-1.1/30

Motor Specifications

Model	TM-RB25-1.1/30 <i>micro-USB extension</i> TM-RB25-C-1.1/30 <i>USB-C extension</i>
Description	25mm tubular RF battery motor
Electrical parameters	8.4V built-in rechargeable battery 2200mAh and 2600mAh options
Power sources	5V/1A charger 2W/15V solar panel
Operational parameters	1.1Nm, 30rpm
Control mode	RF remote control Smart Controller Blue Link port

Wireless remote control

Battery driven

Whisper quiet

Solar powered

Key Features

- Built-in lithium battery lasts up to 6 months
- Charge using a USB wall charger or Neo solar panel
- Easily set the open and close limits
- Precise % position and two favorite positions
- Works with all Neo Remote Controls
- Can work with your phone instantly by connecting the optional Blue Link (Bluetooth® dongle) to the motor. The **Neo Smart Blinds Blue app** is available for iOS and Android devices.
- Comes ready to work with the Smart Controller to enable local and cloud control. The **Neo Smart Blinds app** is available for iOS and Android devices.

Our Smart Controller adapts to your business, whether you work with multiple motor brands, plan to switch, or offer new integration options to your clients.

COMPATIBLE MOTOR BRANDS

Allen+Roth, Alpha, Alta Bliss, A-OK, Arabel, Bofu/Simplicity (roller, vertical, top-down/bottom-up), Dooya, Dooya Bi-directional, Eclipse, Gapos, Jiechang, Louvolite, Maxxmar, MotionBlinds, Neo Smart Blinds, Nice, Raex, Rollease Arc, Rollease Basic, Rollerhouse, Ronco, Somfy, Sunfree Radio+, Turnils AMP, Wistar.

INTEGRATIONS

Amazon Alexa, Google Home, Siri Shortcuts, IFTTT, Control4, Crestron Home, Nice/ELAN Home Management Integration, Savant, Indigo Domotics, HomeSeer, and Apple Home and Samsung SmartThings via Matter.

¹Coverage may vary based on house construction materials, layout, number of floors, and Smart Controller location. Central placement and higher elevation within the house help maximize signal distribution.

²Up to 65,535 rooms and up to 15 blinds per room/group, except for Alpha and Wistar, which support up to 8 blinds per room.

Designed to work with the unique features of each blind type and motor

Neo Smart Blinds motors

In addition to the standard two favorite positions and percentage-based control, Neo Smart Blinds motors with Bluetooth offer feedback capabilities. This allows the Smart Controller and app to display real-time updates on both the current battery level and blind position.

Top-Down Bottom-Up blinds

TDBU blinds allow you to adjust both the middle and bottom rails independently for versatile light control. Just like the remote control, choose the rail you want to move and send the desired command.

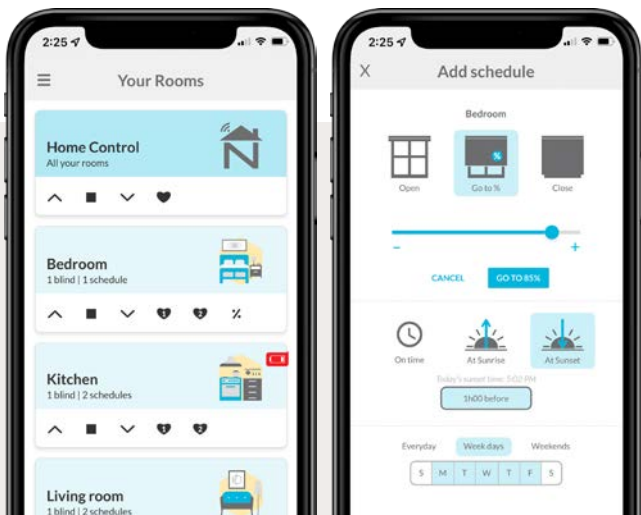

Got new motorized blinds?

Contact technical support at tech@neosmartblinds.com and send the blind instructions along with front and back pictures of the remote control for an integration evaluation.

Percentage Control

Some motor brands, such as **Neo Smart Blinds, Dooya Bi-Directional, Rollease Arc, Rollease Basic, AMP, Jiechang, and Motion-Blinds**, support percentage-based position commands. The “%” button appears when paired with these brands. Tap the button to flip the blind card, allowing you to easily set the desired position by percentage.

Group or individual blind control.
Group schedules based on paired blind features.

Neo Smart Blinds app

The app is available on Google Play and on the App Store.

To control your blinds via a computer, visit the page neosmartblinds.com using a Google Chrome browser.

System requirements

- 2.4GHz Wi-Fi (802.11b/g/n), not 5GHz
- WPA-PSK or WPA2-PSK Wi-Fi security
- Strong Wi-Fi signal at the Smart Controller's location
- Android 9.0+ or iOS 13+ device

BLUE LINK

Blue Link will add feedback capabilities and specific position control via Bluetooth when connected to a supported Neo Blue Motor. Using the app, you can locally control and create schedules for each blind without connecting to a router or Wi-Fi.

Key features

- Direct local phone control
- Signal strength indicator
- Battery level indicator
- Blinds position indicator
- User-friendly guide to pair blinds
- Control your blinds individually
- Swipe control to set the blind to any position between 0 to 100%
- Set schedules to automate your blinds
- Over-the-air updates
- Available for Android and iOS devices
