ABOUT NEO SMART BLINDS

We are a Canadian company based in Montreal that has been revolutionizing the window covering industry for the past 10 years. Our comprehensive approach to design, development and manufacturing has made us a trusted provider of motorized solutions to window covering manufacturers and dealers.

Our Smart Controller works seamlessly with various motor brands, making the integration of our motors into your portfolio simple. From reliable, efficient, and quiet motors to versatile and user-friendly app-controlled devices, Neo Smart Blinds has everything you need to elevate your business.
